

LARGE SCALE CROSS-BORDER PROJECTS

LIFE IS FOR SHARING.

AgroNet - Smart Farming Network (H2020)

The main objective of **AgroNet** project will be to create a system for the integrated approach, traceability and quality monitoring of the agricultural produce from farm to fork. The system will also include a certification method as well as a marketplace involving all stakeholders

- **Innovative agri-food chains: unlocking the potential for competitiveness and sustainability**
- **Deadline for submission: 14.02.2017**
- **Financing: 100% (salaries, travel, 25% incidental expenditure)**
- **Budget: 6 MEUR/project**

Consortium

Organisation name	Country
