- ISO 27001, GDPR, FINMA, PRINCE2, IAM, PAM

A sense of belonging is something we all desire

A sense of **belonging** is a human need, just like the need for food and shelter. ... A sense of **belonging** to a greater **community** improves your motivation, health, and happiness. When you see your connection to others, you know that all people struggle and have difficult times.

You are not alone.

Define a GOAL!
